his wizard will configure your computer for secure network access. To ansure your security, the Cardfi Metropolian University network utilizes a secure authentication mechanism known as WPA2-Enterprise and 802.1X. This security mechanism protects your user name and password. In a wirefees and your sector metwork, your network connection equives specific settings. This wizard will ensure that your machine is properly configured. ArressConnect will attempt to tool automatically using a Java Applet or ActiveX. If you prefer, you may load XeressConnect manually. • get started, simply accept the IT Rules and Regs and click 'Start >! • get started, simply accept the IT Rules and Regs and click 'Start >! • thtp://eduroamsetup.cardfiffmet.ac.uk/ entropy of the terms of the [I Rules and Regs. • Click OK on the id prompt box

The page at eduroamsetup.cardiffmet.ac.uk says:
Your Student or Staff ID and Network Password are required to access this network. When prompted, tap Install to configure the wireless network.
ОК

• Now click the 'network profile' link to download the configuration file

- Find and double click the downloaded file. Your web browser should display it at the bottom of the screen but this will vary depending on which internet browser you use
- Click continue on the Install eduroam screen and also on the Install certificate screen. The certificate helps to secure the eduroam network
